In Soc Trang, a southern provincial city in Vietnam, Tilia and the local wastewater treatment operator have collaborated on a joint project aiming at optimising the way in which the ...

Danish wastewater treatment plants not only purify water but also produce bioenergy from the decomposition of organic matter in ...

There are also urban WWTPs in Vietnam that use low-cost wastewater treatment technologies such as Waste Stabilization Pond systems (Da Nang city, Buon Ma Thuot city, Thanh Hoa ...

Major cities like Hanoi and Ho Chi Minh City are particularly facing environmental pollution due to the rapid increase in both domestic and industrial wastewater, while their ...

Once completed, the plant will treat up to 1.1 million cubic meters of wastewater daily, serving approximately 1.8 million residents across eight districts. The city also aims to ...

This article provides an overview of harnessing solar energy for wastewater treatment plants, highlighting its relevance and importance in the context of renewable energy.

Major cities like Hanoi and Ho Chi Minh City are particularly facing environmental pollution due to the rapid increase in both domestic ...

Applications in various industrial sectors for solar water treatment. One research focus area of the Task was the combination of solar thermal collectors with technologies for wastewater ...

This study employs Life Cycle Assessment (LCA) to evaluate the environmental impacts of wastewater
