-----

JA Solar has commenced the delivery of 1GW DeepBlue 4.0 Pro high-efficiency photovoltaic (PV) modules to the Suji Sandland PV project in Urad Front Banner, Inner Mongolia.

China has connected the world's first 1-GW offshore solar farm to the grid, a plant off Shandong set to generate 1.78 TWh per year.

JA Solar's n-type modules are recognised for high efficiency and reliability. JA Solar has delivered 1GW of n-type PV modules for a pilot project being developed as part of the 12GW Ulan Buh ...

Last October, a consortium consisting of France's ENGIE and Abu Dhabi Future Energy Company (Masdar) won the main contract for the Hazna Solar Project. Under the ...

CHN Energy has started full commercial operations at the 1GW HG14 floating PV (FPV) project off the coast of Dongying in China.

China has brought a 1 GW offshore solar power plant online off the coast of Dongying, Shandong province, combining PV with energy storage and aquaculture in what is ...

China's 1GW offshore solar farm generates power for 2.67 million while America hasn't built a single floating panel yet.

By developing an innovative, highly efficient collaborative management system, the team delivered high-quality construction and set a new record for the fastest completion of a ...

JA Solar has officially initiated the delivery of its highly anticipated 1GW DeepBlue 4.0 Pro high-efficiency
