Are solar street lights available in Egypt?

Solar Lighting International is now offering solar street lamps in Egypt. Since 2004 we've partnered with cities around the globe to install solar lighting for their communities. Our lights are often sought after by communities looking to expand without adding a load to their existing electrical infrastructure.

Is a 200W solar street light a good choice?

The 200W solar street light offers numerous compelling advantages that make it an excellent choice for modern outdoor lighting needs. First and foremost, it provides complete energy independence, eliminating electricity costs and reducing carbon footprint through clean, renewable solar power.

How does a 200W solar street light work?

The 200W solar street light incorporates advanced smart control features that enhance both functionality and security. The sophisticated motion detection system uses high-precision infrared sensors with a detection range of up to 15 meters and a 120-degree sensing angle.

What are stealth solar street lights?

The Stealth Solar Street Light series is an all-in-one design that combines the lights, battery, charge controller, and solar panel into one unit. We will discuss the different pieces, here. These lights use the Phillips 190 Lumen per Watt chips. These lights let us deliver excellent light with a very low power draw.
