Li-ion batteries are one of the most popular types of rechargeable battery for portable electronics, with one of the best energy densities, no memory effect, and a slow loss of charge when not in ...

The cylindrical lithium battery 3.7V is a powerhouse in the world of rechargeable batteries. Its compact cylindrical design allows for efficient space usage while delivering robust energy ...

This lithium-ion battery contains a 2200mAh and a protection circuit that provides over-voltage, under-voltage, and over-current protection. Yet, it is slim and easy to fit into many project cases.

This 3.7v 2200mAh Lithium Ion Cylindrical Battery is based on the 18650 standard and includes protection circuitry to prevent over charging and ...

Discover the 13350 3.7V 500mAh cylindrical lithium polymer battery by ...

With its cylindrical form factor, this battery excels in applications that demand efficient power delivery in a smaller footprint. Although it does not include a protection circuit, the LPC13300 is ...

Our company integrates R& D, manufacture and sales in lithium battery, peripheral of lithium battery pack and emergency items for catering to different market demands.

Features for 3.7V NCM Cylindrical Cell Support high discharge rates ($\geq 30C$) with a long lifespan of up to 10000 cycles. ...

Discover the 13350 3.7V 500mAh cylindrical lithium polymer battery by Topwell Power. Ideal for small electronic devices. Order now for reliable performance.
