Leaptrend's reliable DC AC converter delivers clean and stable power from a battery to provide backup power solutions.

Connecting inverters to batteries is an important part of an off-grid power solution or backup power system, and the right connections ensure that the system runs efficiently.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Learn how lithium-ion batteries pair with solar inverters to boost energy efficiency, improve storage, and enhance your solar power system. Explore the benefits and simple steps ...
