How many countries are served by 5G?

He has a particular interest in wireless broadband and was responsible for TeleGeography's 4G Research Service until it was integrated into GlobalComms. According to the latest data from our GlobalComms Database Service, as of March 2023, 18 countries in the Middle East and Africa region are served by commercial 5G services.

Which countries have 5G in the Middle East?

After the UAE, the next four MEA countries to get 5G were all in the Middle East, with launches in Bahrain, Kuwait, and Qatar in July 2019, followed by Saudi Arabia in the fourth quarter of that year. Africa's first 5G network was launched by wholesale operator Liquid Telecom South Africa in March 2020, using its 3.5GHz spectrum holdings.

How many 5G base stations are there in the world?

In addition, a total of 819,000 5G base stations have been built by these three telecom giants, accounting for 70% of the world's total. As China has played a leading role in 5G technology, its 5G development has extraordinary significance for other countries.

When did 5G start in South Africa?

Africa's first 5G network was launched by wholesale operator Liquid Telecom South Africa in March 2020, using its 3.5GHz spectrum holdings. Vodacom South Africa deployed standards-based fixed wireless 5G access in August 2018, but couldn't offer the service on a commercial basis due to its lack of 3.5GHz spectrum.

The 5G base station market is expected to grow significantly in the coming years, as 5G networks are deployed in more countries and regions. This growth is driven by the increasing demand ...
