-----

Asuncion is the capital and largest city of Paraguay. Unlike other capitals of South America such as Buenos Aires, Quito or Lima, Asuncion is off the beaten path as it lacks well known tourist ...

Asuncion faces unique energy challenges with its tropical climate and growing industrial sector. The city's peak electricity demand reached 1,850 MW in 2023, yet renewable integration ...

A Scottish company called Gravitricity has now broken ground on a demonstrator facility for a creative new system that stores energy in the form of "gravity" by lifting and dropping huge ...

Asuncion, city and capital of Paraguay, occupying a promontory and descending to the Paraguay River near its confluence with the Pilcomayo. It lies 175 feet above sea level.

The Asuncion Energy Storage Project bidding process aims to fix this glaring inefficiency through a 150MW/600MWh battery storage system, potentially becoming South America's largest ...

But let's be real - supply chain delays and skilled labor shortages could push timelines. Still, with energy storage costs dropping 18% annually since 2022, the economics are finally making ...

Asuncion is one of the oldest cities in South America and the longest continually inhabited area in the Rio de la Plata Basin; for this reason it is known as "the Mother of Cities".

One of the challenges of renewable energy is its uncertain nature. Community shared energy storage (CSES) is a solution to alleviate the uncertainty of renewable resources by ...

Perched on the eastern bank of the Paraguay River, Asuncion boasts a unique blend of Spanish colonial
