-----

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution, TENER Stack, setting a new industry ...

"To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL ...

On the first day of the Smarter E show in Munich, CATL, the world's largest battery manufacturer, unveiled the Tener Stack, which it describes as the world's first 9 MWh ultra ...

"To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL ...

On May 7, CATL unveiled TENER Stack, the world's first mass-produced 9MWh ultra-large-capacity energy storage system solution, at the Battery Energy Storage Exhibition ...

"To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible ...

With a 9MWh capacity per unit, it can charge approximately 150 electric vehicles or power a typical German household for six years, enhancing efficiency for large-scale ...

Today, the company unveiled a 20-foot-tall energy storage system (ESS) called the TENER Stack, which, according to CATL, offers breakthroughs in storage capacity, ...

CATL debuts 9MWh TENER Stack, the worlds first ultra-large energy storage system bines split-design
