How is energy supplied in Berlin?

Berlin's urban area is supplied with energy via approx. 900 km of high voltage cable, 10,900 km of medium voltage cable and 23,900 km of low voltage cable. We use this to ensure that every part of Berlin has a secure energy supply. However, not every district has cables at all voltage levels.

How many homes in Berlin will be without electricity until Thursday?

Photograph: Filip Singer/EPA Tens of thousands of homes in Berlin will be without electricity until Thursday as authorities struggle to repair power cables seriously damaged in a suspected arson attack, officials have said.

Was Berlin's power outage worse than a September blaze?

Giffey said Saturday's outage was worse than one in September, when tens of thousands were also left without power in Berlin after a fire hit electricity pylons. Police also suspected arson in that case, and an unnamed anarchist group claimed responsibility online for starting the blaze.
