Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Leveraging 15 years of expertise in battery cell R& D and manufacturing, Wenergy delivers containerized BESS with fully integrated cells, modules, power conversion, thermal ...

ITP Renewables was engaged by Eku Energy to provide expert planning support throughout the development and delivery phases of the 250 MW Big Canberra Battery system, which will ...

The plant will have a solar photovoltaic capacity of 125 MW and a battery-based power storage system of up to 55MW/220 MWh. The company acquired the project from Sun ...

At Apex Energy Australia, we offer state-of-the-art Battery Energy Storage Systems (BESS) tailored to meet diverse energy needs.

At SCS Australia, we design and deliver containerised energy storage systems that provide safe, efficient, and scalable power solutions for industries, businesses, and communities.

As Australia accelerates its renewable energy transition, the Canberra 2024 Energy Storage Power Station Tender represents a pivotal moment for global energy storage providers. This ...

From grid-scale projects to microgrid solutions, Canberra's energy storage container manufacturers are redefining power reliability. With advancing battery tech and smarter ...

The BESS will cost between \$300 and \$400 million and will be developed, built, and operated by Eku Energy.
