One of China's biggest companies, the Fortune 500-listed PowerChina, is establishing itself among energy sector players seeking to offer solutions to the crippling ...

The prices of made-in-China panels are by far the lowest in the world. South Africa's rapid pivot to Chinese solar gear, as affordable as it is, also doesn't resolve a basic problem.

Chinese civil engineering company PowerChina has signed an engineering, procurement, and construction (EPC) contract with ...

China is supplying low cost solar panels to many African nations, including South Africa. Doing so also increases its political power.

Chinese photovoltaic (PV) and energy storage systems company Trina Solar announced on Wednesday that it has entered a partnership with China Energy International ...

Its companies are doing more than just exporting. State-owned Power China is also building utility-scale solar farms in South Africa, as in other developing economies.

Genpower Solar supplies high-quality solar systems tailored to suit your needs and budget. Whether you're powering a home or a business, we have the right solution.

It is not only the first CSP project in sub-Saharan Africa, but also one of the largest renewable energy investment projects in South Africa's Northern Cape Province. It adopts ...
