-----

The battery-only project, in part financed by Dominica's government, is the first of its type under the CREF programme and complements existing and ongoing energy generation projects in ...

While Dominica has made significant progress in diversifying its energy mix and investing in renewable energy projects, there are still challenges to overcome.

The commissioning of a 6 MW / 6 MWh Battery Energy Storage System (BESS), installed at the DOMLEC facility in the Fond Cole area, is nearing completion. Installation is ...

Construction starts on the first major solar-plus-storage project in Dominica is progressing with its first geothermal power project, with site preparation for the 10 MW plant underway. ...

Dominica Electricity Services Ltd. (DOMLEC) is set to perform essential assessments on a newly deployed Battery Energy Storage ...

Summary: Explore how Dominica's cutting-edge energy storage solutions address renewable integration challenges while enhancing grid reliability. Discover technical innovations, real ...

The BESS, with a combined capacity of 6MW/6MWh, will greatly enhance DOMLEC's ability to manage the electricity grid more ...

The commissioning of a 6 MW / 6 MWh Battery Energy Storage System (BESS), installed at the DOMLEC facility in the Fond ...

The goal of these projects is to build generation capacity to meet the increasing demand for energy nationally,
