HighJoule delivers clean, scalable, and solar-integrated backup energy when it matters most--ideal for disaster relief, off-grid sites, and telecom support. Explore all our solar ...

Uses the power of the sun to generate electricity for off-grid needs in military, disaster relief and remote location scenarios. Provides wireless connectivity to a range of 30 miles.

This article examines the role of solar containers in earthquake response, their deployment benefits, and field deployments of how they provide clean and reliable power ...

MOSH1 is a solar-powered container designed for use without internet that serves as a command center for first responders.

HighJoule delivers clean, scalable, and solar-integrated backup energy when it matters most--ideal for disaster relief, off-grid sites, and ...

This Emergency medical pod concept was designed to be easily transported to any location needing help. It can assist underserved areas and disaster zones with this off-grid solar power ...

These BESS container emergency response units are essentially giant lithium-ion batteries stuffed into shipping containers, engineered to deliver off-grid power during disasters.

This article examines the role of solar containers in earthquake response, their deployment benefits, and field deployments of how they ...

In emergency situations like hurricanes, floods, or earthquakes, I deploy these containers for rapid deployment
