---

NYSERDA offers incentives for grid-connected residential and commercial customers to install standalone energy storage or systems paired with a new or existing on-site renewable ...

The City University of New York formed the Smart Distributed Generation Hub (Smart DG Hub) to develop a strategic pathway to a more resilient distributed energy system, and is supported by ...

EK photovoltaic micro-station energy cabinet is an integrated intelligent energy storage device designed for distributed energy scenarios, providing 10-50kWh multiple capacity options ...

Distributed energy storage (DES) is defined as a system that enhances the adaptability and reliability of the energy grid by storing excess energy during high generation periods and ...

New York's VDER tariff, an alternative to traditional solar bill credits tariffs, has proven to be successful at incentivizing distributed solar and storage.

EK photovoltaic micro-station energy cabinet is an integrated intelligent energy storage device designed for distributed energy scenarios, ...

This study investigates the potential economic savings to a UK electricity consumer as a function of energy storage coordination scheme, i.e., central vs. distributed, as well as the system-wide ...

We look at five early-stage storage technologies that could one day help to underpin a new economy powered by near-limitless zero-carbon renewable energy.

For solar-plus-storage--the pairing of solar photovoltaic (PV) and energy storage technologies--NLR researchers study and quantify the economic and grid impacts of ...

For solar-plus-storage--the pairing of solar photovoltaic (PV) and energy storage technologies--NLR researchers study and quantify ...

The Company develops solar and Battery Energy Storage System (BESS) projects that sell electricity to utilities, commercial, industrial, municipal and residential off-takers.

The New York Solar Energy Industries Association has recommended nine ways for the administration of New York City Mayor-elect Zohran Mamdani to speed solar and storage ...
