This publication is designed for those individuals overseeing procurement for the local government they serve with the goal of helping them develop successful RFPs for solar ...

In this study, an evaluation framework for retrofitting traditional electric vehicle charging stations (EVCSs) into photovoltaic-energy storage-integrated charging stations (PV ...

Abstract chapter offers procurement information for projects that include an energy storage component. The material provides guidance for different ownership models including lease, ...

Project Description: In this project, EPRI will work with five utilities to design, develop and demonstrate technology for end-to-end grid integration of energy storage and load ...

These resources provide information and best practices for federal facilities interested in procuring on-site solar photovoltaic (PV) systems.

In evaluating the appropriate contract structures for the initial procurement of utility-scale energy storage resources, stakeholders provided insights on two primary mechanisms: indexed ...

This publication is designed for those individuals overseeing procurement for the local government they serve with the goal of helping ...

In this paper, a novel bidding space model is constructed for PSCSs, which dynamically integrates electric vehicles, photovoltaic generation, and energy storage.
