How much does solar battery storage cost?

If you're looking to buy battery storage for your solar panels, you can probably expect to pay between \$7,000 and \$18,000. Just know that the overall price range for a solar battery is even wider, with prices anywhere from a few hundred dollars to \$30,000+, depending on what you buy, who you buy it from and how you plan to use it.

How much does a solar battery cost in Melbourne?

With electricity prices continuing to rise, more Melbourne homeowners are turning to solar batteries to reduce their energy bills. By storing excess solar energy, households can rely less on the grid and maximise their solar power usage, even at night. The price of a fully installed 20kWh battery usually starts at around \$30,000.

How much does it cost to install solar panels and a battery?

The cost to install solar panels and a battery is \$16,200 to \$37,700 after the 30% federal tax credit. Solar battery installation is cheapest and easiest when installing the battery at the same time as a solar panel or solar roof system to minimize labor and permitting costs. Get free estimates from solar panel installers near you.

Does solar Victoria offer a rebate?

The original Solar Victoria loan and rebate programs have officially closed. Instead, households can now access support through the federal Cheaper Home Batteries Program. This rebate is applied upfront via Small-scale Technology Certificates (STCs), helping reduce the cost of eligible battery systems.

It offers an upfront rebate worth about \$330 for every kilowatt-hour of usable battery capacity, around 30% of the total system cost. So, if you're installing a 10 kWh battery, ...
