PM series integrated cabinet modular data center divides a row of cabinet data centers into sub-modules such as power distribution, refrigeration, UPS, battery, cabinet and airflow ...

Our kiosks and step up stations convert power using transformers, switchgear, a PCS and other components, all of which can be integrated ...

The flexibility of Eaton's Modular Integrated Transportable Substation makes it ideal for a wide variety of industries, including industrial and mining sites, commercial and distributed facilities, ...

E-Houses are Pre-tested containerized power distribution units, allowing efficient and rapid deployment to tackle project complexities while achieving sustainability goals.

Smaller distribution substations are subdivided into container-sized modules, which can be manufactured, assembled and tested at the factory, allowing easy transport and fast ...

All traction power and switching equipment in one container
Medium-voltage switchgear
Rectifier transformer unit
DC switchgear
Setup, connect, switch on - ready
Digital components, connectivity and digital solutions
Station control
Technical features station control system
Sitras SCSEnergy management system
Benefits
Asset Monitoring
Cloud Connectivity
The three-phase AC supply is fed in and distributed via the medium-voltage switchgear. The rectifier transformer unit (rectifier transformer and rectifier Sitras REC) transforms the voltage and frequency of the power supply. DC switchgear Sitras DSG or Sitras CSG distributes the power to the track sections. The Sitras SCS station control system pe...
