-----

In November 2024, a three-gigawatt solar power station in Otog Front Banner of Ordos, built by CHN Energy Investment Group, was connected to the grid. It is currently the ...

"China"s largest" integrated offshore photovoltaic (PV) demonstration project, combining solar power, hydrogen production and ...

In November 2024, a three-gigawatt solar power station in Otog Front Banner of Ordos, built by CHN Energy Investment Group, was ...

China has officially launched a pioneering clean energy system at its Qinling research station in Antarctica, making it the first nation to operate such a system on a large scale in the extreme ...

What"s new: The electricity generated by China"s wind and solar farms reached a record 26% of the country"s overall generation in April, the first time the two renewables have ...

"China"s largest" integrated offshore photovoltaic (PV) demonstration project, combining solar power, hydrogen production and refueling, and energy storage, has been ...

What"s new: The electricity generated by China"s wind and solar farms reached a record 26% of the country"s overall generation in ...

China has unveiled plans to boost its energy storage sector as it strives to shore up its energy security and cope with a surge in ...
