How many base stations are there in Kazakhstan?

As stated by the Prime Minister's press service, 1,144 base stations have been installed in 20 cities. By the end of 2027, mobile network carriers will invest over 450 billion tenge (US\$994.3 million) in the telecommunications industry. Madiyev reported that internet usage in Kazakhstan is on par with that of developed countries.

Is Kazakhstan ready for 5G?

Kazakhstan's mobile market remains highly competitive, but rather than a focus only on growth in subscribers the market has shifted to value-added. All Kazakhstan's major mobile operators are well on the path towards launching 5G services. Kazakhstan has seen a strong increase in mobile broadband penetration over the past five years.

Will Kazakh Mobile operators expand 5G coverage in 2025?

ASTANA - Kazakh mobile operators will expand 5G coverage in Astana, Almaty, Shymkent, and regional centers to complete the introduction of 5G mobile communications by the end of 2025, Minister of Digital Development, Innovations and Aerospace Industry Zhaslan Madiyev said at a June 18 government meeting chaired by Prime Minister Olzhas Bektenov.

How much money will Kazakhstan invest in the telecommunications industry?

By the end of 2027, mobile network carriers will invest over 450 billion tenge (US\$994.3 million) in the telecommunications industry. Madiyev reported that internet usage in Kazakhstan is on par with that of developed countries. Internet traffic growth increased by 61.5% compared to 2020, and the number of users rose by 12.9%.
