Does telecommunications equipment need to be type approved in Kiribati?

Telecommunications equipment brought into Kiribati will need to be type approved if the specific type of equipment is not listed on the Communications Commission of Kiribati (CCK) Type Approval Register on its website. All telecommunications equipment brought into Kiribati will be subject to license fees.

Why does Kiribati have a small telecom market?

Regulatory and Logistical Barriers: Kiribati's tiny telecom market has limited commercial appeal, which historically left it with a single state-run provider and little competition. Until the mid-2010s, the absence of competition contributed to high prices and slow adoption.

What will Kiribati look for in next-generation mobile technology?

As the core network strengthens, Kiribati may look toward next-generation mobile technology. While 5G mobile service is not expected immediately, the ICT policy notes the importance of staying open to new technologies like 5G and IoT (Internet of Things) over time mict.gov.ki.

Where can I get Internet in Kiribati?

The United Nations Joint Presence Office is in South Tarawa and has a basic communications centre. Vodafone Kiribati and Ocean Link both have mobile and internet coverage in Tarawa and Christmas Island. Smaller internet service providers include Speed Wave, Tentanini, and TeniCom, to name a few. Are there ISPs available?
