Unisolar's project at Trepca is more than just a solar installation; it's a symbol of Kosovo's commitment to a sustainable future. By harnessing the sun's power, Kosovo is ...

The project concerns the development of a 100MWac solar photovoltaic power plant (120 MWp), located between Obilic and Fushe Kosova, in close proximity to Pristina, in ...

The combined solar and BESS facility, capable of delivering up to 1 GW of baseload power 24/7, will include a 5.2-GW solar plant and a 19-GWh BESS, making it the largest such project ...

A photovoltaic system is being built on the areas where ash from the two coal-fired power plants at Kosovo A was previously deposited. It will have an installed capacity of up to 100 MW and ...

Kosovo builds energy storage power station Kosovo will be the first country in the Balkan region to invest in a 170 MW battery storage system which will stabilise energy fluctuations by ...

Given the high amount of power required by this charging technology, the integration of renewable energy sources (RESs) and energy storage systems (ESSs) in the design of the station ...

The Government of Kosovo* is preparing a series of auctions for renewable energy and battery storage capacity. Minister of Economy ...

The Kosovo Compact aims to support Kosovo's energy security and transition to a more sustainable energy future, increase ...

The Government of Kosovo* is preparing a series of auctions for renewable energy and battery storage

capacity. Minister of Economy Artane Rizvanolli revealed plans for ...

The Kosovo Compact aims to support Kosovo's energy security and transition to a more sustainable energy future, increase education and employment opportunities in relevant ...

The project concerns the development of a 100MWac solar photovoltaic power plant (120 MWp), located between Obilic and Fushe ...

Let's face it - when you hear "Kosovo" and "energy" in the same sentence, you probably think of power outages before innovation. But hold onto your phone chargers, folks!
