What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

What is a Tesla Solar Roof?

Enhance your home's appearance with the sleek and contemporary design of the Tesla Solar Roof. Generate the most energy possible, even on roofs with complicated angles and intermittent sunlight. Glass solar tiles and architectural-grade steel tiles, vent covers, and ridge caps come together to form a roof that is both durable and powerful.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.

What is a Tesla Solar Roof & Powerwall?

Experience the Tesla Solar Roof and power your home with an advanced, fully integrated solar and energy storage system with the addition of a Tesla Powerwall. Tesla's innovative glass solar tiles and robust steel roofing tiles are designed to provide superior energy efficiency while enhancing the visual appeal of your home.
