-----

HJT Technology Combining gettering process and uc-Si technology to ensure higher cell efficiency and higher module power.

Featuring a bifacial double-glass structure and black frame, their half-cell design improves durability, minimizes shading losses, and maximizes energy output from both sides, combining ...

The JA Solar JAM72D40 MB 600-605W is a next-generation N-Type double glass bifacial solar panel designed for high-power commercial, industrial, and utility-scale solar projects.

The TOPCon solar cell structure consists of a thin tunnel oxide layer sandwiched between a transparent conductive oxide (TCO) layer and a p-doped crystalline silicon layer. The TCO ...

Unlock superior solar performance with the JA Solar 605W N-Type Bifacial Double Glass Solar Panel. This cutting-edge module leverages advanced N-type cell technology and an innovative ...

Nominal bi-facial module gain coefficient can run from 5% to 30% or more, depending on the installation height and the amount of indirect irradiance. It is recommended to design the ...

The ZNSHINE SOLAR ZXM8-GPLDD132 705W is a TOPCON Bifacial Dual Glass high-performance photovoltaic module designed for utility-scale and large commercial solar ...

Featuring a bifacial double-glass structure and black frame, their half-cell ...

Excellent Low Light Performance Our modules can also provide higher power output under low light conditions, such as sunset, cloudy, or dawn.

Featuring cutting-edge technology and a robust design, this high-efficiency panel offers outstanding performance and unmatched durability, setting a new standard in solar innovation.

High-efficiency ZNShine 440W N-Type TOPCon bifacial double-glass solar panel (ZXM7-UHLDD108). 22.5% efficiency with 12-year product & 30-year performance warranty.
