----

Trusted by thousands of developers and holding a 40% market share, Nordic"s Bluetooth(R) LE solution is the go-to choice, leading to over two million wireless SoC (System-on-Chip) ...

The primary function of an energy storage prefabricated cabin revolves around the efficient storage and management of energy. These cabins serve to capture energy generated ...

The primary function of an energy storage prefabricated cabin revolves around the efficient storage and management of energy. These ...

The integrated energy storage cabin can be customized for container packaging of various size according to requirements. It adopts safe and efficient lithium iron phosphate battery, ...

An integrated RISC-V coprocessor can run software-defined peripherals and handle time-critical tasks. With innovative technologies emerging - like Channel Sounding in Bluetooth 6.0 - ...

The energy storage prefabricated cabin is an integrated energy storage device that integrates an energy storage system, battery management system, energy conversion ...

Nordic Semiconductor, a global leader in low-power wireless connectivity solutions, today announces the launch of the nRF9151 SMA Development Kit (DK), a ...

The "eufy Smart Lock E30" employs Nordic Semiconductor"s nRF52840 SoC to power the Matter-over-Thread connectivity, enabling users to lock and unlock their smart lock via any Matter ...

Well, Finland"s latest innovation in energy storage cabins might just prove them right. These modular

powerhouses are tackling one of renewable energy"s biggest headaches - how to ...

nRF Cloud provides Device Management, Device Observability, and Location Services for Nordic devices. Get started free and manage, update, monitor, and debug your devices remotely.

The earliest application of prefabricated cabin type energy storage in power grids is originated in Europe and North America, where the energy storage container (ESC) ...

It is designed as a complementary component to Nordic"s nRF52(R) Series and nRF53(R) Series System-on-Chips (SoCs) to ensure reliable power delivery and stable operation, whilst ...
