-----

Oceania is a geographical region including Australasia, Melanesia, Micronesia, and Polynesia. Outside of the English-speaking world, Oceania is generally consid...

Oceania is a region made up of thousands of islands throughout the Central and South Pacific. It includes Australia, the smallest continent in terms of total land area.

Oceania is a geographical (and geopolitical) region consisting of numerous countries and territories--mostly islands--in the Pacific Ocean. The exact scope of Oceania varies--some ...

Oceania, or the "marine continent", is a region that is made up of thousands of islands. It includes four main regions: Australasia (Australia and New Zealand), Melanesia, ...

Oceania is the collective name for the islands found throughout most of the Pacific Ocean. It traditionally is divided into four parts: Australasia (Australia and New Zealand), ...

Oceania is the smallest continent in land area and the second-least populated after Antarctica. It is home to Earth's third-largest remaining area of tropical rainforest, which covers much of the ...

Oceania is sometimes described as a continent; however, it is a vast region where the waters of the Pacific Ocean -- rather than land borders -- separate nations. Indeed the only land border ...
