What is a wagon wheelbarrow/utility cart?

**WAGON SPECS** - This Wheelbarrow/Utility Cart is a 48V Li-Ion All Electric Brushless motor system, powered by one or two 2Ah/4Ah Rechargeable Lithium-Ion Batteries & has the power/ability to haul loads at a Max 15 Upward Slope. A MAX Working Load Capacity of 500 lbs (230kgs) /Hauling Capacity of 1000 lbs (460kgs) & 6 cu.ft of Cubage to load.

Does a tractor cart have a hitch?

The cart has a drop pin hitch. You would need to make sure you have a hitch plate on your ranger and that the cart sets level when hooked up. Do not use the tractor cart on the highway or on other regulated roadways. You will have to assemble it, and the instructions leave a lot to be desired. There are only pictures.

How do you use a double wheel cart?

The double wheels eliminate fighting to keep it from flipping over. This is a cart that can be pulled by a lawn tractor or used as a wheelbarrow. Switch between modes by simply removing a pin and releasing the latch to use with the tractor or fold the hitch and latch it to use as a wheelbarrow. Very easy to use.
