-----

These include 14 new projects and three amendments, featuring technologies such as wind, solar, hydro, geothermal, and battery energy storage systems (BESS). Of the 17 ...

The company recently launched a joint industry project that aims to drive the sustainability, reliability, and environmental responsibility ...

A large-scale solar and battery energy storage project in the Philippines is moving forward faster than expected, with 54% of the first ...

The company recently launched a joint industry project that aims to drive the sustainability, reliability, and environmental responsibility of power transformers, a critical ...

The transaction represents the largest foreign direct investment for a greenfield infrastructure project in the Philippines and will see Actis bring its rich experience in contracting, building and ...

Nearly 5 GWh of new battery energy storage systems (BESS) will be deployed through hybrid solar-plus-storage projects, signaling the emergence of storage as a core ...

Gravity-based systems store energy using elevation-based potential energy, offering long operational lifetimes. Utilities in Philippines are investing in grid-stabilizing storage ...

Spanning 3,500 acres on the island of Luzon, approximately 100km from Manila, the project will feature 3.5 GWp (gigawatt-peak) of solar capacity alongside 4.5 GWh (gigawatt-hours) of ...

Spanning 3,500 acres on the island of Luzon, approximately 100km from Manila, the project will feature 3.5

GWp (gigawatt-peak) of solar capacity ...

The Philippines is emerging as a key market for battery energy storage systems (BESS) as a massive buildout of data centers puts unprecedented pressure on the national ...

ACEN aims to integrate renewable energy better and further enhance grid reliability through its pioneering battery storage projects in the Philippines and overseas markets.

Stage 1 will unlock 364 MW of the project's planned 2,500 solar capacity supported by battery energy storage systems. The DOE expects Stage 1 to start commercial operation in ...
