How much does a glass curtain wall cost?

Ambrico, the American Brick Company, noted the average glass curtain wall can cost close to \$52 per square foot. There are various types of glass curtain wall systems, including the Stick System, Unit Panel System, Unit and Mullion System, and Column Cover, Spandrel System, and Point Loaded Structural Glazing System.

How much does a glass wall cost?

Alternatively, you may also opt to install smart glass, a type of glass that changes from clear to frosted on demand. Smart glass costs \$70 to \$150 per square foot installed and is a complete panel installed like traditional glass. Glass walls cost significantly more than most other wall types.

Why do curtain wall systems cost so much?

The size and dimensions of the curtain wall system play a crucial role in determining the price. Larger systems require more materials, increased fabrication time, and specialized transportation. Additionally, oversized glass panels may need additional support and engineering considerations, resulting in higher costs.

How much does a glass partition wall cost?

Curtain walls cost less than window walls because they are more likely to have prefabricated options. A glass partition wall costs \$30 to \$90 per square foot or \$1,500 to \$9,000 total installed. These glass walls are commonly used to separate working spaces in an office and vary in size and height.

Explore the factors that affect curtain wall cost, including materials, installation, and design, to help you estimate expenses for your project.

In this article, we delve into the factors and considerations that influence curtain wall pricing, providing a comprehensive understanding of the associated price list.

The cost impact of upgrading to various Solarban(R) glass coatings--whether on clear, Starphire Ultra-Clear(R), or tinted glasses by Vitro Architectural Glass, is minimal and on a standard ...
