Should you buy a used 40ft shipping container?

**Cost-Effective:** The biggest advantage of purchasing a used 40ft shipping container is the significant cost savings. A new container can cost thousands of dollars, while used containers are often available at a fraction of the price. **Durability:** Shipping containers are designed to be incredibly tough.

Is a 40 ft container a good value?

They are graded as Cargo Worthy, Windwater Tight or As Is. As previously mentioned, Container Management, Inc. never sells As-Is condition containers. As a general rule of thumb, a used 40-foot standard container will be priced around 30% more than a used 20-foot container, of the same condition.

What is a 40ft shipping container?

A 40ft container is standardized globally for easy stacking and compatibility with ships, trucks and trains. Our 40ft shipping containers are available in both Standard and High Cube (HC) variations, offering flexibility to suit different storage needs. So, what's the difference? The key distinction lies in their height.

What are the benefits of a 40ft shipping container?

**Portability:** Another benefit of the 40ft shipping container is its portability. While it's a large structure, it can be easily transported by truck or train. This mobility makes it ideal for both temporary & long-term storage solutions for jobsites and worksites. **Security:** The steel construction of a shipping container makes it highly secure.

Thinking of going solar and want to know how much it will cost to ship those panels in a shipping container?

We offer a variety of options to get in touch with us. Fill out the form to the left or use the options below according to your preference.
