This project demonstrates how mobile charging stations (MCS) can provide a cost-effective, flexible alternative to fixed charging infrastructure, accelerating the electrification of ...

Homes and businesses are the source of electricity demand and locating battery storage systems near them efficiently addresses congestion and grid strain while postponing costly upgrades ...

We have around 21 BESS and microgrid sites with 335 megawatts (MW) of utility-owned energy storage and another 49+ MW in development. Typically, these battery systems and microgrids ...

Our "Green Construct Charge" (GCC) project uses mobile, battery-powered charging stations to power electric excavators, loaders, and compactors on active job sites, replacing diesel fuel ...

The Water Authority and City of San Diego are evaluating the feasibility of developing a pumped storage energy project at the City of San Diego's San Vicente Reservoir near Lakeside.

SDG& E's utility-owned battery storage portfolio is expected to reach nearly 480 MW of power capacity and over 1.9 GWh of energy storage by year-end, including the ...

As temperatures climb across the region, San Diego Gas & Electric is ramping up efforts to ensure the power keeps flowing. From long-term infrastructure investments to ...

San Diego Gas & Electric (SDG& E) announced today the California Public Utilities Commission (CPUC) has approved an expansion of the company's Westside Canal Battery ...

SDG& E's utility-owned battery storage portfolio is expected to reach nearly 480 MW of power capacity and
