This project features the installation of Trina Solar's top-tier photovoltaic modules on the rooftops of factory buildings, complemented by the Potentia Blue Ocean system, an ...

The world's largest 1 GW offshore solar farm located off the coast of Dongying, Shandong Province, China is now connected to the grid.

"China's largest" integrated offshore photovoltaic (PV) demonstration project, combining solar power, hydrogen production and ...

China has brought a 1 GW offshore solar power plant online off the coast of Dongying, Shandong province, combining PV with energy storage and aquaculture in what is ...

Siemens announced the launch of its first integrated solar and storage project at a Chinese factory in east China's Nanjing on Monday.

If you've ever wondered how China plans to keep the lights on while slashing carbon emissions, look no further than its power construction energy storage projects.

The world's first intelligent grid-forming photovoltaic and energy storage power station, tailored for ultra-high altitudes, low-temperatures and weak-grid scenarios, has been ...

"China's largest" integrated offshore photovoltaic (PV) demonstration project, combining solar power, hydrogen production and refueling, and energy storage, has been ...

In a landscape with an average altitude of about 4,700 meters, this pioneering energy storage system

developed by tech giant Huawei, based in south China's Shenzhen, ...

Under Trina Storage's contract for the innovative fishery-solar-storage project, the company provided a state-of-the-art 1500 VDC energy storage system. This system ...

The Kashgar energy storage project strengthens the power grid, reduces solar discharge and promotes sustainable development in Xinjiang.

The world's first intelligent grid-forming photovoltaic and energy storage power station, tailored for ultra-high altitudes, low ...
