Affordable on- and off-grid renewable energy with LIXI Lithium battery storage for your Mauritian home and business. Partner for Deye, Growatt and MPP Solar inverters.

Mauritius is transitioning to a low carbon economy, with the Central Electricity Board (CEB) installing the first grid-scale Battery Energy Storage System (BESS).

Qair announces the closing of a new loan to support the implementation of a hybrid solar and battery storage project in Mauritius.

The system is based on LiFePO₄ lithium iron phosphate battery technology, offering high safety, a long lifespan (over 6,500 cycles), and a modular design, making it ideal for Mauritius's ...

In an exciting development for renewable energy in Africa, Qair, an Independent Power Producer (IPP), has successfully closed a loan to finance a significant 60MW hybrid ...

The government of Mauritius has inaugurated a 20 MW grid scale battery energy storage system from Siemens to help meet its goals of 60% renewable energy by 2030.

This installation utilized GSL ENERGY's proprietary 25kWh stackable energy storage system, integrated with solar photovoltaic power generation, to achieve true energy ...

The simulations of key scenarios demonstrate that a 100 % RE system for Mauritius is technically feasible within reasonable costs. Solar photovoltaic (PV) and battery energy ...

Qair has secured a loan from SBM Bank to build 60 MW of hybrid solar and storage projects in Mauritius,
