Where is Xinyi Solar based?

It provides PV glass products to major PV module manufacturers in the world. At present, Xinyi Solar had six major PV glass production bases, which are located in Wuhu City of Anhui Province, Beihai City of Guangxi Province, Zhangjiagang City of Jiangsu Province, and Malacca City in Malaysia, etc.

What is the Daily melting capacity of Xinyi Glass?

As at 30 June 2025, total daily melting capacity is 23,200 tonnes. Xinyi Glass invested in the first solar raw glass production line. The first ultra-clear solar raw glass production line commenced production in Wuhu.

What does Xinyi Solar & Flat Glass Group do?

Chinese leaders Xinyi Solar and Flat Glass Group deploy scale as their chief weapon, targeting 32,200 tonnes per day of combined capacity by end-2024. They leverage integrated sand mining, float lines, and module assembly to extract cost efficiencies difficult for smaller peers to match.

How does Xinyi Solar contribute to the solar energy industry?

XINYI SOLAR also contributes to the solar energy industry by developing and operating solar power plants and offering comprehensive EPC services. As the world's leading photovoltaic glass manufacturer, XINYI SOLAR was listed on the Hong Kong Stock Exchange in December 2013 (stock code: 00968.HK).

The company has developed a robust portfolio of photovoltaic glass products, including double-glass components and high-transparency tempered sheets for solar cell ...

Glass supply to the PV industry is more concentrated than any other manufacturing, equipment or materials segment. Indeed, just two companies (Xinyi and Flat Glass) have a market share of ...

The company specializes in the PV glass production and solar farm development and construction. Major products include ultra-clear patterned solar glass (raw and tempered), anti ...

Speaking to TaiyangNews, the company said it specializes in PV glass making and has product offerings encompassing ultra-clear solar glass (raw and tempered), anti-reflective ...

XINYI Brother is Energy-Saving Solar Glass Factory from China, XYB solar Glass is mainly used as PV Module Cover/Back Sheet/Solar Heater, ...

What is Solar Photovoltaic Glass? This article explores the classification and applications of solar photovoltaic glass. Photovoltaic glass substrates used in solar cells typically include ultra-thin ...

Competitive strategies range from Chinese producers expanding commodity capacity to Western incumbents investing in circularity, low-carbon furnaces, and specialty ...

The company specializes in the PV glass production and solar farm development and construction. Major products include ultra-clear ...

Glass supply to the PV industry is more concentrated than any other manufacturing, equipment or materials segment. Indeed, just two ...

Speaking to TaiyangNews, the company said it specializes in PV glass making and has product offerings encompassing ultra-clear ...

China TOP 5 Photovoltaic Solar Glass Supplier, provides Front and Back Solar Glass with high light transmission and efficiency for solar applications, offering customized solutions at ...

The company has developed a robust portfolio of photovoltaic glass products, including double-glass components and high ...
