What can we do for your solar PV system in Manchester?

Geo Green Power not only supplies and installs solar panels in Manchester, but also specialises in the long-term care and maintenance of these systems. Our team of qualified electricians can conduct thorough annual servicing and deal with any issues surrounding faults or repairs.

What is solar control glass?

Today's technically advanced solar control glass products are here to help. We provide a range of glass options specifically designed to control the amount of heat and light that passes through the window. These solar control glass options are perfect for sealed units in windows on south and south west facing elevations.

Which solar control glass is right for my home?

These solar control glass options are perfect for sealed units in windows on south and south west facing elevations. In the home, there is no better option than our sealed units created using SGG PLANITHERM 4S glass - part of the pioneering Saint-Gobain Glass range of PLANITHERM low-E glass products.

Why should you buy solar control glass?

The low solar heat gain properties help to reduce internal overheating, and subsequently reduce associated air-conditioning requirements. Buy the best solar glass for your office, home, school, university or any other building from the No.1 manufacturer of solar control glass in the UK.
