Could off-grid expansion help regenerative agriculture in South Sudan?

Their holistic approach broadened regenerative agriculture over a 12-acre plot, co-designing projects with communities, installing solar-powered drip irrigation pumps, training and employing farmers and supporting distribution. Off-grid expansion could be a major step towards increasing access to and awareness of renewable energy in South Sudan.

Is South Sudan ready for a recovery and inclusive growth?

The signing of the Revitalized Agreement on the Resolution of the Conflict in the Republic of South Sudan in September 2018 and the subsequent formation of a unity government in February 2020 brought a measure of hope for recovery and inclusive growth; however, the transition period has been extended thrice, and progress on key milestones delayed.

Does South Sudan have a transport infrastructure gap?

South Sudan has one of the largest transport infrastructure gaps and most inefficient logistics systems in the World. Initial estimates suggest \$7-9 billion will be needed to bring the level of surface transport to that of Ethiopia, Kenya, and Uganda.

What is wrong with South Sudan's transportation infrastructure?

South Sudan's transportation infrastructure is plagued by insufficient current investment and maintenance as well as a legacy of a protracted civil war which destroyed a significant part of the infrastructure and left most of it in a state of disrepair.

South Sudan faces significant poverty-related challenges, with more than 82% of the population living in multidimensional poverty. This includes limited access to basic ...

Historical Data and Forecast of South Sudan Photovoltaic Market Revenues & Volume By Half-Cell PV Modules for the Period 2020-2030 South Sudan Photovoltaic Import Export Trade ...

This guide offers a clear overview of the customs duties and tax regulations for importing solar manufacturing

components into South Sudan and exporting finished modules.

South Sudan's economy stagnated in FY22/23, reflecting the lingering impacts of flooding on oil production. Aggregate growth is estimated to have remained in negative territory in FY22/23,3 ...
