---

Meet the energy storage container - Southeast Asia's unsung hero in the energy transition. These modular powerhouses are reshaping how the region stores and distributes ...

The market for alternative renewable energy is expanding extensively in Southeast Asia, where hundreds of millions are without reliable electricity. Off-grid solar container ...

Polinovel 2MWH commercial energy storage system (ESS) is tailored for high-capacity power storage, ideal for large-scale renewable energy generation, PV self-consumption, off-grid ...

Southeast Asia's solar exports have primarily targeted the US, with more than 80% of the equipment it imported in the first half of ...

The National Central Cooling Company, better known as Tabreed, is looking at markets including Vietnam, Thailand, and Indonesia to expand its footprint in Asia as it anticipates a surge in ...

Falling module prices, rising carbon-neutral pledges, and widening retail-grid parity are reinforcing investment momentum across Vietnam, Indonesia, Thailand, the Philippines, ...

Many countries are working to improve their infrastructure to support the increased feed-in of solar-generated electricity. Another challenge is the competition from Southeast ...

Advanced Lifepo4 Battery Technology: Equipped with high-temperature BMS (Battery Management System) and 1500V PCS (Power Conversion System), this container ensures ...

Once considered viable alternatives to China for solar manufacturing, Southeast Asian countries like Vietnam, Thailand, and ...

Once considered viable alternatives to China for solar manufacturing, Southeast Asian countries like Vietnam, Thailand, and Cambodia are now facing significant disruptions. ...

Falling module prices, rising carbon-neutral pledges, and widening retail-grid parity are reinforcing investment momentum across ...

Despite strong ambitions, PV module manufacturing in Southeast Asian is currently under pressure. Operational capacities have been significantly reduced or temporarily halted, ...
