Discover the state of solar panel manufacturing in Europe, the challenges posed by imports, and what EU countries are doing to rebuild local production. Learn how European-made solar can ...

Discover the state of solar panel manufacturing in Europe, the challenges posed by imports, and what EU countries are doing to rebuild local ...

Solar module manufacturing costs in Europe could get close to those of the thriving Indian PV industry, according to Peter Fath, the CEO of Germany-based RCT Solutions.

Austrian power producer Verbund Green Power has secured more than 700 MW of photovoltaic modules from China's Trina Solar Co Ltd under a five-year framework agreement ...

Holosolis announced Europe's largest PV module gigafactory, to be built in Moselle, France. Aiming to accelerate Europe's solar PV manufacturing capabilities to ensure continental ...

This article focuses on the key changes shaping the European solar market in 2026, analysing how PV module selection influences project bankability, generation stability ...

This latest report highlights the rapid changes taking place at European manufacturing facilities and across their supply chains. These shifts, while often necessary, ...

A new market analysis from SolarPower Europe highlights the potential of European solar production to underpin the resilience of the European sector. SolarPower ...

This latest report highlights the rapid changes taking place at European manufacturing facilities and across

their supply chains. These ...

The European Solar Charter, signed on 15 April 2024, sets out a series of voluntary actions to be undertaken to support the EU photovoltaic sector.

The initiative aims to scale up solar PV manufacturing capacity in Europe to 20GW by 2025, unlocking EUR40bn of GDP annually and creating 400,000 new direct and indirect jobs across the ...

Our "Southern Europe solar PV market outlook 2024" covers the key solar market drivers and challenges for large-scale development and distributed solar generation in Iberia, ...
