-----

Alexander Battery Technologies is an expert custom LiFePO<sub>4</sub> battery pack manufacturer. We design and produce high quality customised Lithium Iron Phosphate batteries.

Cell-Con will provide a custom Lithium Iron Phosphate smart battery assembly that utilizes SMBus, CANbus, or I2C for communication between the host device, battery, and charger.

We manufacture custom lithium iron phosphate battery packs and assemblies for many applications. Our battery design team uses the latest ...

For startups or niche applications: A123 Systems and Power-Sonic deliver specialized, high-performance packs with rapid customization.

They may be configured in series, parallel or a mixture of both to deliver the desired voltage, capacity, or power density. Packs are identified by cell size, number of cells, battery structure, ...

NBS designs and manufactures Custom Lithium iron phosphate battery packs and chargers (LiFePo<sub>4</sub>) that are safe, reliable and perform consistently.

Alexander Battery Technologies is an expert custom LiFePO<sub>4</sub> battery pack manufacturer. We design and produce high quality customised Lithium ...

These battery packs represent a specialized type of lithium-ion battery technology that uses lithium iron phosphate (LiFePO<sub>4</sub> or LFP) as the cathode material and a graphitic carbon ...

These batteries provide advantages such as a long cycle life, fast charging and discharging, a low

self-discharge rate, high safety, high energy density, and excellent high-temperature ...

We manufacture custom lithium iron phosphate battery packs and assemblies for many applications. Our battery design team uses the latest mechanical and electronic design tools to ...

Our LiFePO 4 Battery Pack with Grab Handle range meet the same safety standards as the tracer LiFePO 4 Battery Packs and are ideal for powering motors and where a higher output current ...

We specialize in custom LiFePO4 battery packs tailored to your exact voltage, capacity, size, and connector requirements. Whether you're building smart robots, handheld two-way radios, or ...
