-----

Building-integrated photovoltaics (BIPV) are evolving beyond simple solar panels, with transparent solar cells and solar skin technologies that can be seamlessly incorporated into windows, ...

Renewable energy EPC firm, Aptech Africa, has announced the completion of 26 MWp of solar panels on the Ezra Power Plant in Juba, serving to enhance energy security and diversification ...

The discovery of oil, mainly in South Sudan in 1998, hindered the further exploitation of solar energy as a means of producing energy on a wider scale as Sudan became heavily reliant on ...

The details of solar cells and modules exported from the country for the last five years, country-wise, as per the website pertaining to Export-Import Data Bank of ...

A grid-tied 229.9kWp solar energy rooftop system has been designed, supplied, installed and commissioned in Juba, the capital of South Sudan. The system comprises 415 panels of ...

The solar farm is under development by a consortium comprising Elsewedy Electric Company of Egypt, Asunim Solar from the United Arab Emirates (UAE) and I-kWh Company, an energy ...

Recognizing the immense potential of solar energy in Juba, Aptech Africa embarked on a mission to provide tailored solar solutions to meet the diverse needs of the ...

So far, we have conducted calculations to evaluate the solar photovoltaic (PV) potential in 8 locations across South Sudan. This analysis provides insights into each city/location's ...

To access additional data, including an interactive map of global solar farms, a downloadable dataset, and
