What is 'project Sucre'?

Few details are available at this time, but Axiom reports plans for the campus have been filed through an affiliate known as Laidley, LLC, and is known as "Project Sucre." Citing a public notice, Axiom suggests Meta is targeting more than 2,250 acres of agricultural land off Highway 183 and Thomas Road.

How much does project Sucre cost in Shreveport?

This project, known as "Project Sucre," will be situated on 2,250 acres of agricultural land, approximately 125 miles east of Shreveport. The data center campus represents a substantial investment, with capital expenditures estimated between \$5 billion and \$10 billion.

Is Sucre a big data center?

And Sucre is not even the biggest. OpenAI is partnering with Oracle, Softbank, Microsoft and others on the Stargate project, which they say will be a \$500 billion, multi-site datacenter expansion, beginning with Abilene, Texas.

How much electricity does Sucre use?

To power racks lined with thousands of Nvidia H100 GPUs, Sucre will require 2.23 gigawatts of 24/7 electricity (enough to power more than 2 million homes), which utility company Entergy will provide via twin high-efficiency natural gas turbines at a capital cost of \$3.2 billion.

The company has procured 12 GW of clean energy, enough to power a major U.S. city, including 100 MW of solar in Louisiana.

This grandest of Meta's 20 worldwide data centers will be ...

That's exactly what the Sucre Pumped Storage Power Station brings to the renewable energy table. Nestled in Bolivia's mountainous terrain, this project isn't just about flipping switches - ...

National news reported that the scheme is called "Project Sucre" and is planned for a 2,250-acre (911-hectare) site on agricultural ...

Meta Platforms is planning to build a significant data center in northern Louisiana, specifically in Richland Parish. This project, known as "Project Sucre," will be situated on 2,250 acres of ...

Few details are available at this time, but Axiom reports plans for the campus have been filed through an affiliate known as Laidley, LLC, and is known as "Project Sucre."

The proposed Seguro Energy Storage project is a battery energy storage system (BESS) with a capacity of up to 320 megawatts (MW) / 1,280 megawatt-hours (MWh)*, which is enough ...

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Technological advancements are dramatically improving ...

Meta Platforms is planning to build a significant data center in northern Louisiana, specifically in Richland Parish. This project, known as "Project ...

Few details are available at this time, but Axiom reports plans for the campus have been filed through an affiliate known as Laidley, ...

The company said the project, which it calls Project Sucre, would represent a \$5 billion investment at a minimum and support at least 300 full-time jobs. The group this past summer applied for a ...

This grandest of Meta's 20 worldwide data centers will be called Sucre (i.e. sweet) and cover 4 million square feet of floor space on 2,250 acres.
