CableFree offers Band 46 5GHz LTE Base Station and Outdoor CPE devices for operation in Unlicensed 5GHz spectrum, enabling smaller operators ...

The HELIOS 4G LTE Distributed Base Station (eNodeB) provides wireless access functions, including management of air interface, access control, mobility control, user resource ...

For a start, you want a reasonably powerful computer, a transmit-capable full-duplex software defined radio (SDR), suitable antennas, some programmable SIM cards, and a few ...

To rapidly restore damaged communication systems, we propose a UAV-based mobile base station equipped with Public Safety ...

CableFree offers Band 46 5GHz LTE Base Station and Outdoor CPE devices for operation in Unlicensed 5GHz spectrum, enabling smaller operators and private customers to build LTE ...

The standalone 4G LTE Manpack Base Station provides a quick and smart network for voice, data, video, and Position Location for Information Services (PLI) for mounted and dismounted ...

The JPE-L is a robust and weather-resistant 4G LTE Base Station that boasts exceptional dependability, enabling cellular connectivity in remote areas that are difficult to access.

Experience CableFree's 4G & 5G LTE Small Cell outdoor ...

In this article, for optimizing the three-dimensional (3D) deployment of aerial-BSs for 5G mmWave networks, a classic deep reinforcement learning (DRL) network which named ...
