Supported by the U.S. Department of Energy's National Renewable Energy Laboratory (NREL) and the Australian Department of Foreign Affairs and Trade, this initiative ...

A hydropower project that works like a giant water battery, storing enough energy to power 50,000 homes during cyclone season. That's exactly what the Port Vila Front River ...

The RESSET project is designed to increase solar generation and battery storage, with construction standards capable of withstanding climate risks. It is expected to reduce ...

The upcoming Renewable Energy Solar and Storage on Efate and Tanna (RESSET) project, following this milestone, will provide an ...

The upcoming Renewable Energy Solar and Storage on Efate and Tanna (RESSET) project, following this milestone, will provide an additional 5 MWp of PV generation, ...

The project aims to support the use of solar power and battery storage on the islands of Efate and Tanna, boosting Vanuatu's energy ...

A pilot project on Ambrym Island uses volcanic heat to store energy in basalt rocks, achieving 78% round-trip efficiency. It's not perfect yet, but imagine combining that with existing ...

Vanuatu currently has one of the lowest electricity access rates in the world. Under the RESSET project, New Zealand will serve as the lead donor, providing the majority of ...

As Pacific nations accelerate their transition to clean energy, the Port Vila Energy Storage Power Station emerges as a landmark project for Vanuatu.

Vanuatu s largest energy storage project
