What is Georgia Power's 530-megawatt battery storage system?

Georgia Power breaks ground at the McGrau Ford Battery Facility in Cherokee County on April 4, 2025. This 530-megawatt battery energy storage system will consist of two phases, approved in the 2022 Integrated Resource Plan (IRP) and 2023 IRP Update. Courtesy: Georgia Power.

Where are battery energy storage projects popping up?

Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report. Most of the new batteries- 97% of them- ended up in ERCOT, WECC, and CAISO territories.

Where is Georgia Power's first grid-connected Bess system located?

In February 2024, Georgia Power installed its first grid-connected BESS, the Mossy Branch Energy Facility, a 65 MW system on a couple of acres of rural countryside in Talbot County, north of Columbus, GA. It was approved as part of Georgia Power's 2019 IRP.

ATLANTA, May 7, 2025 /PRNewswire/ -- Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) ...

Georgia's emerging domestic battery manufacturing facilities incorporate production flexibility to serve both automotive and grid-scale storage markets. This dual-manufacturing ...

Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent ...

ATLANTA, May 7, 2025 /PRNewswire/ -- Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery ...
