20" shipping container office. 1900 watts of solar on the roof with a Growatt 3000 watt 120/240 inverter. This container can be run solely off batteries or you can just plug it in.

While container prices stabilized, the ripple effect continues. A standard 40HC container that cost \$3,500 pre-2023 now averages \$4,200 - and that's before adding solar components.
