Can foreigners invest in battery storage businesses in Brazil?

Investment, incentives and taxation scenarios According to Brazilian law, there are no legal restrictions on direct foreign investment in the battery storage businesses or in the power sector (except in very specific segments or sectors of the economy).

How does Bess work in Brazil?

In May 2024, the Brazilian Ministries of Development and of Science and Technology issued an ordinance to provide tax and non-tax incentives for the production of BESS in Brazil. The ordinance establishes the concept of a 'basic production process' and a points-based system for lead and lithium batteries.

What businesses are deploying Bess in Brazil?

A few other businesses exist in Brazil as well, such as Micropower, Aldo Solar and YouOn, for instance. The deployment of BESS can take various forms, and business initiatives may vary. To address this, the National Electric Energy Agency of Brazil (ANEEL) has identified a regulatory gap and initiated a three-phase roadmap.

Brasol, a company with strategic operations in energy transition and a stake in Siemens and BlackRock, announced the creation of a new division dedicated exclusively to ...

Lower battery prices and increases to intermittent power generation could boost battery energy storage systems (BESS) in Brazil, reaching roughly 7.2GW of installed capacity by 2040 or ...

A resource presenting an overview of Battery Energy Storage Systems (BESS) available in the Brazilian market or for import, along with their main manufacturers, consolidating everything ...

In the next 12 months, the Brazil Battery Energy Storage Systems (bess) Market will create opportunities that current industry players are not yet prepared for. The ...

Chinese and Brazilian battery energy storage system (BESS) manufacturers and installers are preparing to

invest in a promising market beset by rising energy costs and ...

Chinese and Brazilian battery energy storage system (BESS) manufacturers and installers are preparing to invest in a promising market ...

The launch of a dedicated BESS auction in Brazil could help boost the growth of the technology in the country and further enhance the use of renewables such as solar PV and ...

The Battery Energy Storage System (BESS) market in Brazil is witnessing growth as utilities, renewable energy developers, and commercial customers deploy energy storage solutions to ...

Technological advancements in battery energy storage systems, particularly in lithium-ion and solid-state technologies, are enhancing the operational efficiency and economic viability of ...

The upcoming BESS auction represents one of Latin America's largest emerging storage opportunities. With consultation in November 2025 and auction in April 2026, U.S.

Explore Brazil's battery energy storage systems, focusing on current regulations, investment opportunities, and the role of these systems in the energy transition.
